

Charging the future

Say hello to smarter, greener and cheaper EV charging at home

Smart & future-proof

Ohme chargers can be managed from our smartphone app and use live data to start and stop charging to balance the grid

Cost saving technology

Ohme finds the greenest and cheapest time for drivers to charge based on their current energy tariffs and charging needs

Customer obsessed

Ohme is here to help you every step of the way which is why the majority of our customers rate Ohme 5*

Setting up is simple

Ohme's easy installation process and smartphone app will have you charging in no time at all
